

CITY OF PLEASANTON

Climate Action Plan 2.0

Join us in working to address climate change and ensure that Pleasanton remains a beautiful, prosperous, and healthy home for all.

The City of Pleasanton is currently updating its Climate Action Plan. Climate Action Plan (CAP) 2.0 will provide a roadmap for reducing community greenhouse gas emissions and adapting to a changing climate.

Quick facts

WHO?

The Pleasanton community includes City government, businesses, residents, and organizations.

WHAT?

CAP 2.0 covers both climate mitigation (actions to reduce carbon pollution) and climate adaptation (actions to prepare for climate change impacts).

HOW?

CAP 2.0 includes strategies to protect ecosystems, increase low-carbon transportation, ensure clean energy and water, support sustainable consumption, and reduce climate change impacts.

Why should we take action?

Healthy, livable communities

Local green jobs

Resiliency to economic + climate changes

Healthy, beautiful landscapes

Efficient transportation options

Long-term cost savings

What you can do

CAP 2.0 will direct projects and resources spent in the Pleasanton community.

You can help determine the direction we take.

Plan Focus Areas

BUILDINGS & ENERGY

Expanding renewable energy sources, supporting efficient building standards, and creating a more climate-resilient energy grid.

TRANSPORTATION & LAND USE

Promoting efficient land use and creating a clean, effective transportation system with walking, bicycling, transit, and electric vehicles.

MATERIALS & CONSUMPTION

Extending the lifecycle of materials, reducing the need for new consumption, and improving city-wide recycling and composting.

NATURAL ECOSYSTEMS

Preserving open spaces, protecting tree canopy cover, and enhancing ecosystem health and services for the community.

WATER RESOURCES

Improving water quality and managing supply through rainwater management and drinking water conservation.

COMMUNITY RESILIENCE & WELLBEING

Building awareness and improving public services to ensure all communities are prepared for climate-related impacts.

Timeline for community engagement

2020

SPRING/SUMMER

- Update the community about progress to date, CAP 2.0 process, and opportunities to get involved.
- Consult with residents and stakeholders on goals and targets.

2021

FALL/WINTER

- Identify top strategies and actions to meet targets.
- Decide on implementation details.
- Define metrics of success and a monitoring framework.

SPRING

- Release draft CAP 2.0 and incorporate feedback.

SUMMER/FALL

- Adopt final CAP 2.0.
